Govt. Industrial Training Institute, Kasaragod, Kerala · 2019–2020

Senior Secondary
Board of Open Schooling, Kerala · 2024

PROFILE

Visual designer with four years in Dubai, building brand identities and the content that carries them across print, social, motion and film. I work end to end: concept, art direction, shoot, edit and delivery, so the idea that wins the pitch is the one that ships.

EXPERIENCE

Graphic / Visual Content Creator
2025 — Present

MODUS Digital Marketing · Bay Square, Dubai

- Lead the visual output for client accounts in real estate and retail, Zee Real Estate among them, from brief to final file.
- Shoot and edit product photography, video and UGC-style content in-house, removing the need for outside production on campaigns.
- Cut launch reels and social films for property campaigns, including AI-generated cinematic sequences directed frame by frame.
- Design brochures, product labels and campaign systems that hold one visual language across print and digital.
- Run several projects in parallel against live client deadlines, turning revisions around the same day.

Graphic Designer
2021 — 2024

DuLight FZE · JAFZA, Dubai

- Redrew the company identity: a single geometric wordmark, a five-part logo system and the line “Redefining Light”, rolled out across stationery, signage and social.
- Produced social creatives and product visuals for LED lighting ranges and campaigns.
- Designed brochures and sales material used by the sales team in front of buyers.
- Kept one consistent look across every platform while handling multiple briefs and feedback rounds at once.

SELECTED PROJECTS

- **New City Light** — full identity system for a lighting supplier in Baghdad: bilingual logo suite, guidelines, stationery, signage, fleet and social templates.
- **Ethra** — art direction and product visuals for four fragrances, plus a 3D retail kiosk.
- **ConnectIn** — social identity system and “Sarah”, a recurring AI brand persona carried into short-form video.
- **Ary & Maz Developments** — AI-driven visual direction: anchor character, environments and cinematic sequences.
- **Gilroy** — “Saeed”, a 3D character built to front the brand’s social content.
